

James S. Duracin

Executive Summary

Tonya and Business Internships

Risk Management Council

Led by company President, Nancy Council, MAS, ARM, SCLA, Risk Management Council offers its clients a complete commercial insurance solution including: Property & Casualty, Brokerage Risk Management and Third Party Administration.

As an intern my goal with Risk Management Council was to learn about business insurance and the vital component it plays in reducing a business' exposure to risk and loss. I pursued that goal by gathering information, processing, and conducting a proper distribution of the relevant information.

I worked with the staff, including the president of Risk Management Council, Nancy Council, which had led me to be exposed to each of the three components - property and casualty brokerage services, risk management, third party claims administration - which is the mission and purpose of risk management council.
