Calendar

OF THE

University of the South,

1877-1878.

“*Ecce Quam Bonum.*”

NASHVILLE, TENN.:

WHEELER BROTHERS, PRINTERS.

1877.

Prayer for the University.

ALMIGHTY GOD, the Father of our LORD JESUS CHRIST, we, Thy servants, implore Thy blessing upon this UNIVERSITY. Give the Spirit of wisdom to all those to whom Thou hast given the authority of Government. Let the Students grow in grace day by day; enlighten their minds, subjugate their wills, and purify their hearts. Bless all who have contributed to this Institution; and raise up to the UNIVERSITY, we humbly pray Thee, a never failing succession of benefactors, whose names may be perpetuated through all generations, as of blessed memory, and their good deeds be accepted through the sole merits of our LORD and SAVIOUR JESUS CHRIST. AMEN.

CALENDAR FOR 1878.

SCHOOL OF ANCIENT LANGUAGES.

PROF. CASKIE HARRISON.

In this School are taught

- (I) The Latin and Greek Languages.
- (II) The History and Literature of Rome and Greece.
- (III) The Principles of General Grammar.

For the degree of B. A. there are three classes, and the following authors chiefly are read:

IN LATIN: Cæsar, Quintus Curtius, Sallust, Cicero, Terence, Virgil, Ovid, Livy, Horace, Juvenal, Tacitus.

ADDENDA.

Under Certificates of Proficiency, p. 14, the following was omitted :

DeKOVEN MEDAL FOR SACRED STUDIES.

JOHN D. SHAFFER, , *Louisiana.*

reading is extended.

Text-books and lectures are used according to circumstances. The instruction throughout is philosophical, and is designed to suggest to the pupil right methods of thought. A special attempt is made towards idiomatic and rhetorical composition.

Examinations for graduation in each department are held in July.

An examination for entrance into the Junior classes will be held at the beginning of every term. *Gildersleeve's Latin Primer and Reader*, and *Goodwin's Greek Grammar and Leighton's Greek Lessons* are recommended as indicating proximately the requirements for the Junior Classes.

German.

Vardry McBee,.....N. Carolina.

SCHOOL OF ANCIENT LANGUAGES.

PROF. CASKIE HARRISON.

In this School are taught

- (I) The Latin and Greek Languages.
- (II) The History and Literature of Rome and Greece.
- (III) The Principles of General Grammar.

For the degree of B. A. there are three classes, and the following authors chiefly are read:

IN LATIN: Cæsar, Quintus Curtius, Sallust, Cicero, Terence, Virgil, Ovid, Livy, Horace, Juvenal, Tacitus.

IN GREEK: Xenophon, Herodotus, Isocrates, Lysias, Demosthenes, Homer, Thucydides, Plato, Euripides, Sophocles.

The books for reference are:

IN LATIN: *Allen and Greenough's, Gildersleeve's, Madvig's, Roby's Grammars. Andrews', White's, Riddle and Arnold's, Lexicons. Liddell's History of Rome, Long's Atlas. Gildersleeve's Latin Exercise Book, Abbott's Latin Prose, for Composition.*

History and Literature Primers.

IN GREEK: *Kühner's Curtius', Goodwin's, Grammars. Madvig's Syntax, Goodwin's Syntax. Liddell and Scott's, Yonge's, Lexicons. Smith's History of Greece, Long's Atlas. Boise's Greek Syntax, Sidgwick's Introduction, for Composition.*

History and Literature Primers.

For the degree of M. A. special courses are provided, and the range of reading is extended.

Text-books and lectures are used according to circumstances. The instruction throughout is philosophical, and is designed to suggest to the pupil right methods of thought. A special attempt is made towards idiomatic and rhetorical composition.

Examinations for graduation in each department are held in July.

An examination for entrance into the Junior classes will be held at the beginning of every term. *Gildersleeve's Latin Primer and Reader, and Goodwin's Greek Grammar and Leighton's Greek Lessons* are recommended as indicating proximately the requirements for the Junior Classes.

SCHOOL OF MATHEMATICS.

PROFESSOR E. KIRBY SMITH.

This school embraces three classes, and requires three recitations weekly in the Senior, and daily recitations in the Junior and Intermediate classes.

The following is the order of class studies, with a list of the text books used.

JUNIOR CLASS.—Geometry of space and volume embraced in the VI., VII., VIII., and IX. Books. Modern Geometry with discussion of transversals, at the discretion of the Professor, Discussion of the General Equation of second Degree, Nature and Theory of Logarithms. Theory of Equations, embracing Sturm's Theorems, etc.

INTERMEDIATE CLASS.—Trigonometry, Plane and Spherical. Surveying. Descriptive Geometry. Shades, Shadows and Perspective.

SENIOR CLASS.—Analytical Geometry, Differential and Integral Calculus with applications to Mechanics and Astronomy.

TEXT BOOKS.—Peck's Algebra, Analytical Geometry and Calculus, Geometry and Trigonometry, Davies' Surveying, Church's Descriptive Geometry, and Shades and Shadows.

For admission into the Junior class, the student is required to pass the examination of the Fourth Form of the Grammar School or its equivalent.

SCHOOL OF CIVIL ENGINEERING AND PHYSICS.

PROFESSOR GORGAS.

Civil Engineering.

In this school are taught Topographical and Right-line Drawing and Etching; Location and Construction of Roads, Railways, and Canals; Strength of Materials; Masonry, Framing, Bridges, Improvement of Rivers and Seacoasts, etc.

TEXT BOOKS.—Smith's Topography, Mahan's Civil Engineering (Wood's Edition); Gillespie's Roads and Railroads.

The student is presumed to have studied the course of pure Mathematics as far as Plane and Spherical Trigonometry and Mensuration before entering this School.

Physics.

The school embraces a Junior and a Senior class. The first is limited to elementary instruction in Mechanics, Heat, Light, Electricity, Optics, etc.

TEXT BOOK.—Ganot's Physics, (Atkinson.)

The course in the Senior class includes the analytical investigation of Mechanics, Astronomy, Optics, and Acoustics.

TEXT BOOKS.—Peck's Mechanics, White's Astronomy, Deschanel's Optics and Acoustics.

To enter the Senior class, a full course of pure Mathematics must have been studied.

SCHOOL OF METAPHYSICS AND ENGLISH LITERATURE.

PROFESSOR WILMER.

This school is divided into two classes, either of which may be taken to the exclusion of the other; and to any student who satisfactorily passes the final examination in either one, a certificate of proficiency in that branch will be awarded. To any student passing such examination in both, the diploma of the school will be given.

The class of Metaphysics embraces Psychology and Logic, and is distributed according to the two terms of the scholastic year. Metaphysics is allotted to the Trinity term and Logic to the Lent term.

The class of English Literature embraces Rhetoric and Belles-Lettres, and is distributed in like manner—Rhetoric to the Trinity, and Belles-Lettres to the Lent term.

The text-books used in the Senior class are Cousin's Psychology, (Prof. Henry's Edition,) and Whateley's Logic.

The text-books in the Junior class, are Hart's Composition and Rhetoric; Shepherd's History of the English Language; and Shaw's English Literature.

Lectures by the Professor, both supplemental to and expository of the text, form an important feature in the method of instruction, which is enforced by daily examinations on both lecture and text.

The student of Metaphysics is recommended to have, as books of reference, Locke's Essay on the Human Understanding; Hamilton's edition of Reid's complete works; Mansel's Bampton Lectures, (Limits of Religious Thought;) and Morrell's or Cousin's History of Philosophy.

SCHOOL OF POLITICAL ECONOMY AND HISTORY.

ACTING PROFESSOR WILMER.

TEXT BOOKS—Perry's Political Economy; Students' Gibbon's Rome; Students' Gibbon's England.

Political Science is taught exclusively by Lectures.

Political Economy and Roman History are taught in the Trinity term; Political Science and English History are taught in the Lent term.

SCHOOL OF GEOLOGY AND MINERALOGY.

ACTING PROFESSOR ELLIOTT.

In this school the course is continued through two terms. The first term is devoted to Historical and Dynamical Geology. The instruction is chiefly by lecture. The text used is Dana's Text-book of Geology. The second term is devoted chiefly to the Chemistry of Minerals, and is taught practically in the Laboratory. Graduation in both courses entitles the student to a Diploma in the School. A certificate of Proficiency will be given for graduation in either term singly. A class in each subject is begun with each term. The students are recommended to use for reference the following works:

- LYELL'S PRINCIPLES OF GEOLOGY.
- DANA'S MANUAL OF GEOLOGY.
- LYELL'S ANTIQUITY OF MAN.
- RECENT ORIGIN OF MAN, SOUTHALL.
- GEIKIE'S GREAT ICE AGE.

SCHOOL OF THEORETICAL AND EXPERIMENTAL CHEMISTRY.

PROFESSOR ELLIOTT.

In this school the course of lectures extends through four terms, the subject being divided as follows:

- FIRST TERM.—Chemical Physics, including Heat, Light, Electricity, Magnetism.
- SECOND TERM.—Inorganic Chemistry, and Chemical Philosophy.
- THIRD TERM.—Organic Chemistry.
- FOURTH TERM.—Qualitative Chemical Analysis.

The text used during the first three terms is "A Manual of Elementary Chemistry," Fownes' *last Edition*.

The course for the fourth term is adapted from Fresenius.

A course of lectures is delivered each term, explaining and amplifying the different subjects; recitations are required, daily, from the text and lectures.

A class in each of the above subjects is formed at the beginning of each term, enabling an applicant to begin the course either at the opening of the Lent, or of the Trinity term.

Written examinations are held at the close of each term. Students passing these examinations successfully will not be required to stand an additional examination for the degrees of B. A. and B. S.

Graduation in the subjects included in the first three terms is required for the attaining of a Diploma for the degree of B. A. In addition to this, graduation in Qualitative Chemical Analysis is required for a Diploma entitling the student to the degree of B. S.

A student may take up the subjects embraced in the third and fourth terms during the same term.

In the lectures are embraced all the late advances in Chemical and Physical Science; and as it is impossible to compress within a text book the subjects of the course, students are advised to use the following works for reference.

A Text Book of Heat, Clerk Maxwell. *Heat as a Mode of Motion*, Tyndall. *Correlation and Conservation of Forces*, Ed. by Youmans. *Recent Advances in Physical Science*, Tait. *Miller's Elements of Chemistry*. *Barker's Chemistry*. *Knapp's Chemical Technology*. *The New Chemistry*. *Johnson's Agricultural Chemistry Foods*, Ed. Smith's International Series. *A Manual of Qualitative Chemical Analysis*, Fresenius.

School of Moral Science and Evidences of Christianity.

PROFESSOR DUBOSE.

In this school the subjects taught are distributed in accordance with the two semi-annual terms. The Evidences of Christianity is assigned to one term, and Moral Science to the other. In connection with the Evidences of Christianity are taught the principles of Natural Religion, *i. e.*, The Being, Attributes and Moral Government of God, the Immortality of the Soul, etc. Moral Science is treated of in its relation to the different Moral Theories, and to the Will and Moral Emotions.

The Method of Instruction is by lectures and text-books. The books used for the present will be Jouffroy's Introduction to Ethics, Stuart's Active and Moral Powers, Paley's Evidences of Christianity and Horæ Paulinæ, and Butler's Analogy and Sermons on Human Nature.

SCHOOL OF MODERN LANGUAGES AND LITERATURE.

PROFESSOR SCHALLER.

In this school a three years' University course is requisite for the Bachelor's degree in any one of the languages taught ; not, however, including the preparatory (or Grammar-school) training, which has been added in the schedule below. These three years may be materially shortened in the case of the older students who study for a degree, by additional work assigned, and by attending two University classes in the same language, in special cases of proficiency.

It is the aim to teach the modern languages as thoroughly as possible ; and at the same time to impart some facility in their practical use, both in writing and in speaking. In the Senior classes frequent recitations are had in the language studied ; and written exercises occupy the entire University course. During the last year of the course a Graduating class is formed, to which extra work is assigned ; and a special author is selected for the basis of such work. For the year 1878 Schiller is the author for German, and Moliere for the French Graduates. An original graduation essay, based upon a study of these authors, is required in the language studied.

SCHOOL OF FRENCH.

PREPARATORY COURSE.—Fasquelle's or other Introductory Grammar ; Written Exercises, and the Regular Verbs. An acquaintance with the chief rules of pronunciation, and the translation of easy sentences, with the regular verbs, are necessary to enter the Junior Class.

JUNIOR CLASS.—Fasquelle's or other advanced Grammar ; Histoire de France, de Napoléon, or de Frédéric le Grand ; Conversational and Written Exercises throughout the year.

INTERMEDIATE CLASS.—Pujol's Grammar ; Classical and cotemporary Literature. The art of Composition is begun and the practical exercises are continued.

SENIOR CLASS.—Noël et Chapsal's, or Poitevin's Grammars, and solution of their exercises ; Brachet's Histoire de la Langue Française ; Grammatical Exercises ; Demogeot's Literatur and Weekly Compositions.

THE GRADUATING CLASS.—Meets the Professor once a week from May 1st, to August 1st, for the reading of the author assigned, and for the discussion of such parts of French Literature as are suggested by the theme.

SCHOOL OF GERMAN.

PREPARATORY COURSE.—A preparatory Grammar. A thorough knowledge of the Declensions and primitive forms of Regular Conjugations are necessary to enter the Junior Class.

JUNIOR CLASS.—Woodbury's, or other, Larger Grammar. A preparatory Reader; Written Exercises; a thorough knowledge of Regular Verbs and facility in reading and pronunciation.

INTERMEDIATE CLASS.—Whitney's Grammar and Reader; The Art of Composition is begun—the above Grammars being constantly referred to—and the Irregular Verbs of the language are completed.

SENIOR CLASS.—Heyse's Grammatik and Weber's Weltgeschichte, are used. In the Lent term there are weekly compositions, and occasional colloquial exercises.

THE GRADUATING CLASS.—Pursues the same course as under School of French, and after April 1, meets the Professor once a week for the reading of the author assigned.

SCHOOLS OF SPANISH AND ITALIAN.

IN SPANISH.—Velazquez's and DeVere's Grammars, Velazquez's Selections and the Colmena Español are used.

IN ITALIAN.—Cuore's Grammar will be used.

A SPECIAL COURSE IN LITERATURE,

to foster a taste for a continuance of the study of Continental Literature, is open for those, who, having already graduated in this school, may wish to continue their studies at the University. The meetings will be weekly; and the course will treat of the development of Literature in connection with General History. The works of reference will be indicated as the course advances.

SCHOOL OF COMMERCE AND TRADE.

[The duties of this school are devolved upon the Master of the Grammar School.]

COURSE.—Penmanship, Peck's Complete Arithmetic, Folsom's Logical Book-Keeping, Parsons on Mercantile Law, Morse on Banks and Banking. Graduation in all the subjects entitles candidates to a Diploma.

SCHOOL OF THEOLOGY.

REV. GEO. T. WILMER, D. D., *Professor of Systematic Divinity.*

REV. W. P. DuBOSE, S. T. D., *Professor of Hebrew, Exegesis, Homiletics.*

———, *Professor of Ecclesiastical History.*

The school was opened in March, 1877. Applications for admission should be made for the present to Rev. W. P. DuBOSE, S. T. D., *Chaplain.*

History and Location.

THE scheme of this University attracted much attention, North and South, before the civil war. It was propounded by the Bishop of Louisiana, Leonidas Polk, in 1857; and received the hearty assent of the Bishops of the ten most Southern Episcopal dioceses, to whom it was addressed. The plan was to combine their common efforts on building up one great seat of learning, where the highest culture of the intellect should be united with earnest Christian training. The idea was geographical, not sectional, as the word is now used, since only a portion of the dioceses of the South united in the work.

After much investigation and discussion of the merits of various localities, the plateau of the Sewanee mountain, a spur of the Cumberland range, was determined on, and the corner-stone of the main central edifice was laid in the fall of 1860, before a vast concourse of spectators. A large endowment had been obtained, by a partial canvass of two only of the States concerned, and a domain of nearly ten thousand acres secured.

The civil war not only arrested all progress but swept away every vestige of what had been done. Nothing remained, save the ample domain. With the assistance of funds obtained, chiefly from English churchmen immediately after the Lambeth conference in 1867, the enterprise was resumed, and a school was begun on the 18th of September, 1868. This school constituted the germ of the present University, which has now in operation a fair number of the thirty-two academic schools contemplated in the original plan. The school of Theology, last established, begun its work in March last.

ORGANIZATION AND GOVERNMENT.

The University of the South is under the sole and perpetual direction of the Protestant Episcopal Church, represented by a Board of Trustees. The Board of Trustees is composed of the Bishops of North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Tennessee, and the Missionary Bishops of Arkansas, of Northern and of Western Texas, and of one Clergyman and two Laymen from each of the Dioceses mentioned. The senior Bishop is *ex-officio*, Chancellor of the University.

The administrative head of the University is the Vice-Chancellor. He is assisted in the government of the University by the Hebdomadal Board, composed of all the Professors, so long as the number of chairs does not exceed twelve; after that, vacancies in the Board are filled by the action of the Board of Trustees.

Plan of Instruction.

Separate schools are established for each department of learning. The number of these schools is to be increased as fast as the resources of the University allow it, so as to embrace all branches of knowledge. Students elect such schools as best meet the ends they may have in view.

Matriculation.

No student is allowed to matriculate in the University until he is seventeen years of age, except in case of evident proficiency, to be determined by the Hebdomadal Board. He must take three schools, unless for special cause, to be determined by the Vice-Chancellor.

Honors.

A diploma of graduation in any school is awarded to such students as, at the end of the scholastic year, shall have attained a satisfactory standard—to be determined by examiners appointed by the Hebdomadal Board. But no diploma may be conferred, in any case, until the candidate shall have passed a satisfactory examination in the English language. Certificates of Proficiency are also given on one of its branches where a school embraces several; or where less than a diploma is required in a degree, as for example in the degree of B. S., where Latin is prosecuted only to the Intermediate class.

Degrees.

The Degrees conferred by the University on its graduates are stated below, with the requirements for each Degree. They are adapted to the varying tastes and capacities of students. The Degree of *Bachelor of Letters* embraces nothing in Mathematics beyond the Junior course, and avoids the domain of Science and Natural Philosophy. That of *Bachelor of Science* embraces only intermediate Latin, omitting Greek entirely, embracing instead a full course of Mathematics with Political Science, History, Chemistry, Geology and Mineralogy. The Degree of *Bachelor of Arts* is adapted to those who have aptitude equally for Science and for Letters. The last Degree on the list—that of Civil Engineer—is chiefly professional, though it combines in its branches the elements of an elevated practical education.

The requirements for graduation in the several Schools are stated under those Schools.

The diplomas required for the several degrees are as follows :

BACHELOR OF LETTERS (B. Lt.):

Greek, Mathematics (Junior), Moral Science.

Latin, Metaphysics and English Literature.

German or French, Political Science and History.

BACHELOR OF SCIENCE (B. S.):—

Latin (intermediate), Mathematics, English Literature,* (certificate), Political Science and History, French or German, Moral Science. Geology and Mineralogy, Analytical Physics, Chemistry.

BACHELOR OF ARTS (B. A.):—

Greek, Latin, Mathematics.
French or German, Moral Science, Metaphysics † and English Lit.
Chemistry, Physics (Analytical).

MASTER OF ARTS (M. A.):—

In addition to the Bachelor's diplomas required for the Degree of B. A., the candidate must exhibit MASTER'S DIPLOMAS in three branches of

Class A. { 1st, Greek; 2d, Latin; 3d, Pure Mathematics; or 4th, Applied Mathematics;

or the equivalents of these in the following branches of Class B, (any Master's diploma in Class A being equal to two Master's diplomas of Class B).

Class B. { 1st, Metaphysics; 2d, French; 3d, German; 4th, Moral Science; 5th, Chemistry; 6th, Political Science and History; 7th, Geology and Mineralogy.

CIVIL ENGINEER (C. E.):—

Bachelor's diplomas in the following schools:

Civil Engineering, Analytical Physics, French or German, Mathematics, Chemistry, Geology and Mineralogy, English Literature (certificate), Moral Science.

Chapel.

Daily morning services are held in the Chapel. These services are brief, and with the full choir are made very attractive. The character of the services is specially controlled by the action of the Bishops of the Board of Trustees. All Festivals and Fasts are duly observed according to the Prayer-Book. It is the duty of all students to attend morning prayer. Instruction upon sacred subjects is given to students in all stages of their course.

Buildings.

A Library, with estimated capacity for twenty thousand volumes, built with funds given by the Rev. Telfair Hodgson, of Hoboken, New Jersey, is nearly complete.

St. Luke's Hall, for Theological Students, with lecture-rooms and apartments for forty persons, will be ready for use about April. This Hall was presented by Mrs. Manigault, of South Carolina, as a memorial to her late father, Lewis Morris, of New York.

* Includes Rhetoric.

† Includes Logic.

Library.

A good library, consisting of near six thousand volumes, has been already secured, and is open to students at appointed hours.

Societies.

There are two Literary Societies—the Sigma Epsilon and the Pi Omega. The Guild of St. Mark is devoted to missions, and to charitable works.

Proctor.—Discipline.

The general duties of discipline and police are entrusted to the Proctor. He is assisted by such students as, from their good conduct and gentlemanly bearing, are thought competent by the Vice-Chancellor. The discipline observed is directed mainly to the maintenance of that good order and quiet necessary to study. The students are lodged in groups of from five to twenty at the several boarding-houses. These are in charge of ladies of culture and refinement. It is their influence and that of the refined society collected here that is chiefly relied on to promote good morals and correct habits.

Sewanee.

Sewanee, the site of the University, is an elevated plateau of that name—a spur of the Cumberland mountains. Its elevation above the level of the sea is about two thousand feet, while it is about one thousand above the level of the surrounding country. Experience fully confirms the wisdom of the Board in its selection. The summer temperature is delightful, and the winter is not sensibly colder than in the valleys below. It is abundantly supplied with pure, cold, freestone water; and its fine dry air is highly exhilarating in its effects. There can be no doubt of its eminent salubrity. The domain lies spread out upon the mountain summit, at nearly a uniform height above the plain below, full nine miles, with an average width of nearly two miles. It is heavily wooded, and presents to the eye the most pleasing variety of its gentle and gracefully undulating surface. From the verge of the cliffs, bordering it on all hands, are presented most charming views of the valleys and adjacent mountains.

Sewanee is reached by the St. Louis, Nashville & Chattanooga Railway, as far as Cowan Station, and at that point a mountain railway, the Sewanee Mining and Railway Company's road, begins its ascent, reaching the University at a distance of about nine miles. Perhaps a more definite notion of the exact location of the University may be given those who are not acquainted with it, by saying that the great tunnel on the St. Louis, Nashville & Chattanooga road passes not far from under the University domain; so that it is about a hundred miles south of Nashville by rail, and thirty-five north of Stevenson.

The Post Office address is "SEWANEE, TENN." The Post Office is a money-order office, and there is a telegraph station at Sewanee.

Scholastic Year.

The Scholastic year is divided into two terms—the Lent term, of twenty weeks, beginning in 1878 on the 14th day of March, and ending on the 31st day of July;

the Trinity term, of twenty weeks, beginning on the 1st day of August, and ending on the 18th day of December, 1878.

Examinations are held at the close of each term.

Commencement.

The Commencement is fixed in the future for the first Thursday in August, and the Board of Trustees meets on the Saturday preceding. In 1878 Commencement comes on August 1st.

Vacation.

The only stated vacation is in the winter, beginning in 1878, on the 19th day of December, and continuing twelve weeks.

Dress.

The prescribed dress for "Gownsmen" of the University is the scholastic cap and gown.

That for the Juniors of the University is a uniform of gray cloth.

NOTE.—The Juniors become Gownsmen at about 18 years old, if their studies are sufficiently advanced.

Drill.

The Juniors of the University and the pupils of the Grammar School are organized into a battalion, well equipped, which drills three times per week, at such hours as do not interfere with their studies. While military drill is thus provided by the Board of Trustees, the discipline of the University is, as directed by the statutes, wholly Proctorial.

Expenses.

The expenses are identical with those of the Grammar School, stated at the close of the Calendar.

Boarding.

Under a recent Resolution of the Board of Trustees, parents and guardians can make their own arrangements with the Boarding Houses.

Grammar School

OF THE

University of the South.

The Grammar School.

CHARLES M. BECKWITH, A. B.,

Master of Grammar School.

W. D. POWERS, *1st Assistant.*

C. B. WILMER, *3d Assistant.*

E. A. GREENE, *2d Assistant.*

ROB'T M. DUBOSE, *Study Master.*

Organist and Instructor in Drawing, Penmanship and Music,

W. F. GRABAU.

This is a school of preparation for the University schools. It is divided into four forms, the fourth being the most advanced. Each form ordinarily occupies one year, though boys may be advanced more rapidly in special cases of great aptness. To enter the first form, boys are required simply to be able to read and write. This school has the same terms and vacations as the University, and at present the charges are identical.

The discipline of the Grammar School is such as to enforce attention to studies, and to prescribed regulations.

The uniform is of gray cloth, and may be had of the resident tailor, at a cost of about \$23 to \$26 for the suit complete.

All funds, including spending money, intended for the use of boys in the Grammar Schools, are to be deposited with Samuel G. Jones, the general Treasurer, Sewanee, Tenn.

The pupils of the Grammar School, with some of the students of the University, are organized into military companies, regularly officered, and are drilled in the schools of the soldier, of the company, and of the battalion.

Special attention is called to the Department of Elocution. This includes Declamation, Composition, Specimen Letters, etc. Beginning with Students of the First Form, great care is taken in training the voice, imparting clearness of pronunciation, and easy grace in delivery.

GRAMMAR SCHOOL STUDENTS.

AUGUR, F. S.	Louisiana.	ING, LUCINE.....	Tennessee.
ADAMS, H. S.....	Georgia.	JESSUP, W. S.....	Georgia.
BICKHAM, W. S.	Louisiana.	JOHNSON, A. C.....	Tennessee.

COURSE OF STUDIES IN THE GRAMMAR SCHOOL.

FIRST FORM.

MATHEMATICS.—Venable's Mental Arithmetic.

ENGLISH STUDIES.—Holmes' Third Reader; Writing; Spelling; Maury's First Lessons in Geography; Declamation.

SACRED STUDIES.—Catechism of the Church.

SECOND FORM.

MATHEMATICS.—Venable's Elementary Arithmetic.

ENGLISH STUDIES.—Holmes' Fourth Reader; Spelling; Writing; First Lessons in Composition; Elementary Grammar; Maury's Geography, "The World We Live In;" Specimen Letters; Declamation.

SACRED STUDIES.—Catechism of the Church.

THIRD FORM.

MATHEMATICS.—Venable's Practical Arithmetic.

ENGLISH STUDIES.—History; Maury's Manual of Geography; Holmes' Fifth Reader; Spelling; Declamation; Swinton's History of the United States; Dictation.

LATIN.—Bingham's Latin Grammar.

MODERN LANGUAGES.—French; German; Spanish.

SACRED STUDIES.—Catechism of the Church.

FOURTH FORM.

MATHEMATICS.—Algebra; Geometry.

ENGLISH STUDIES.—History; Physical Geography, (Maury's); Butler's Grammar; Declamation; Composition; Elocution.

LATIN.—Bingham's Grammar; Bingham's Reader; Bingham's Cæsar; Nepos.

GREEK.—Goodwin's Greek Grammar.

MODERN LANGUAGES.—French; German; Spanish.

BOOK-KEEPING.—Palmer's Course; Peck's Complete Arithmetic.

SACRED STUDIES.—Weekly Lectures.

Grammar School Prizes.

1. <i>Algebra</i> ,	A. C. JOHNSON.
2. <i>Algebra</i> ,	T. H. R. JOHNSON.
<i>Arithmetic</i> ,	T. H. R. JOHNSON.
<i>Physical Geography</i> ,	J. H. GLOVER.
<i>Manual of Geography</i> ,	W. M. FAIRCHILD.
<i>Cæsar</i> ,	D. R. HITE.
<i>Latin Reader</i> ,	T. H. R. JOHNSON.
<i>Latin Grammar</i> ,	J. S. McCONNELL.
<i>Greek Reader</i> ,	W. M. MILES.
<i>Best Writing</i> ,	D. R. HITE.
<i>Greatest Improvement</i> ,	H. L. POINTER.
<i>Conduct</i> ,	EDWARD SWANN.

EXPENSES, ETC.

PAYABLE IN ADVANCE FOR EACH TERM.

Matriculation (paid once only), \$10 00.			
Board, \$90, Tuition, \$50, Washing and			
Lights, \$15, (per term,).....	\$155 00	\$155 00	\$310 00
Medical Attendance (per term),.....	5 00	5 00	10 00
Fuel extra.			
	\$160 00	\$160 00	\$320 00

A deposit of \$20 is required to cover cost of books and other incidental expenses, to be renewed at each subsequent Term, if needed. Pupils will bring with them one pair of blankets, three single sheets, two pillow cases, six napkins and a napkin ring, six towels and a clothes bag. Two pairs of strong shoes are required. All clothing, etc., should be distinctly marked.

Money intended for the use of the pupils of the Grammar School, as well as the usual Term charges, will be sent to Samuel G. Jones, Sewanee.

Tuition fee and board will be refunded only in case of death or necessary withdrawal through sickness. This fee is charged for either the whole or part of the Term, according to date of entry.

Parents and guardians are asked not to withdraw pupils, to avoid the examinations. Boxes of edibles sent to the boys are usually followed by sickness: and it is too often mistaken kindness to send money, except to the authorities, to be by them judiciously conveyed to the pupil.

The charge for Board, Washing and Lights, it will be observed, amounts to exactly 75 cents per day.

Payments are due on the first day of each Term. If funds are not then in hand, a draft for the amount will be drawn on the parent or guardian. It is desired that information be given in advance of the intention to send pupils. A certificate of good character from some responsible person is necessary.

Letters of Inquiry should be addressed to the Vice-Chancellor, Sewanee, Tenn.

RECAPITULATION OF ALL THE STUDENTS BY STATES.—Total, 212.

Louisiana, 48; South Carolina, 24; Alabama, 20; Tennessee, 28; Texas, 14; Mississippi, 26; Arkansas, 6; Georgia, 12; Florida, 18; North Carolina, 6; Kentucky, 4; Virginia, 2; Missouri, 1; New Jersey, 1; England, 2.
